

The way I feel

Do you wish to feel

The way I feel

I doubt it

'Cause I have no "freedom

No freedom of speech

No freedom of expression, and

No freedom of emotions

I can't have love or hold it

I can't talk the way I want

I can't express my self freely and

I can't even show emotion when I need to

Most people think that I have every thing that I could want

They assume that I have every thing that I need

But to their surprise they're wrong

I don't have every thing that I want or even need

How would you like to be stressed out all the time and
to not have on out let

I am stressed out about school, college, projects, friends, family
life.

I wish I had an island all my own to live on

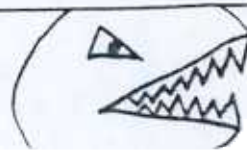

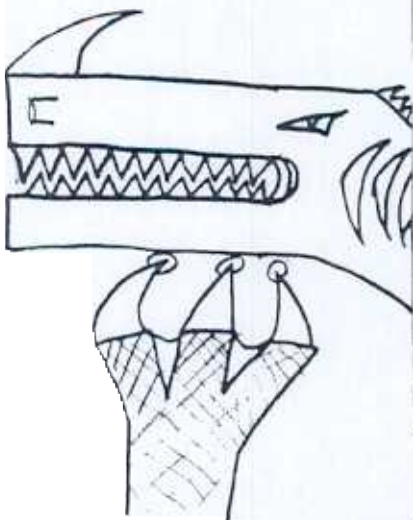

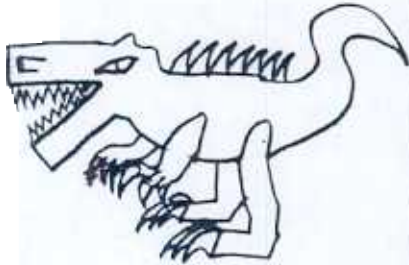

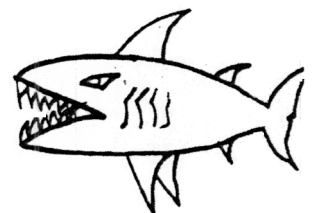

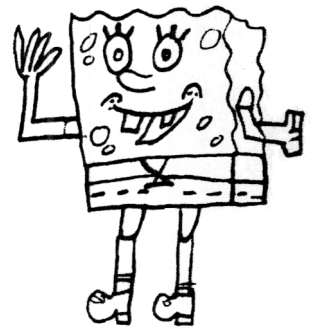

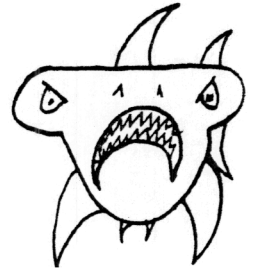

Do you wish to feel the way I feel

I don't think so

'Cause you need no I do

how far this list goes
